25X1

1. The BRANDENBURG-ARADO (N 53/Z 23) airfield was still occupied by fighters on 20 July 1949. The aircraft did intensive flying. Three tank trucks coming from the direction of NAUEN (N 53/Z 45), were observed approaching the airfield.
2. The BRANDENBURG-BRIEST (N 53/Z 13) airfield, which was again in operation, was used as a training field by the fighters stationed at the ARADO airfield. The local labor office drafted construction workers for this airfield.

5X1 Comment:

a. Report does not state the number of fighters now stationed at the BRANDENBURG-ARADO airfield.

Two fighter regiments are reported to be stationed there.

b. The BRANDENBURG-BRIEST airfield was out of operation during the last months. It is, however, considered credible that it is now being used by aircraft stationed at the BRANDENBURG-ARADO airfield. This is the first information regarding an apparently intended reconstruction of the field.
